

LI SHUI SHANSHUI CITY

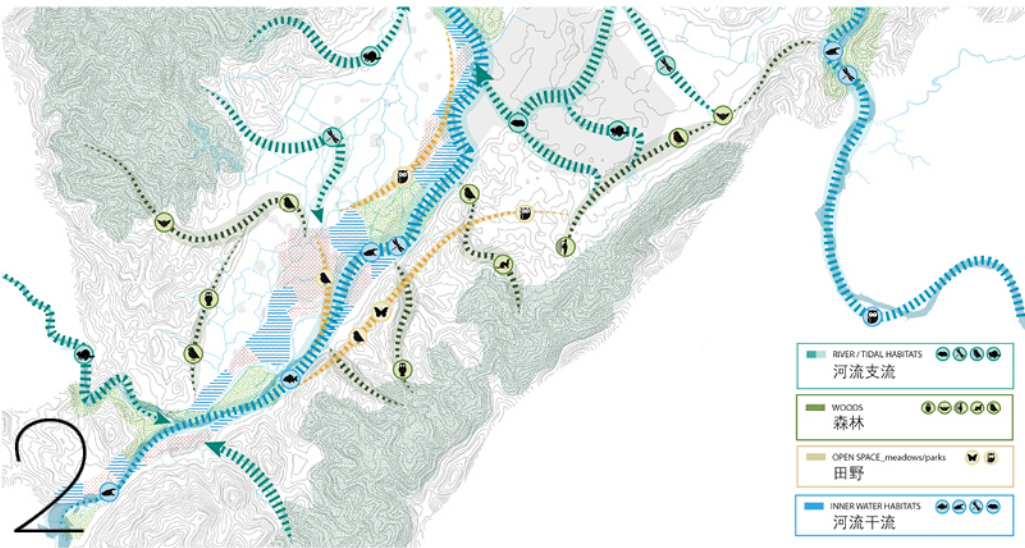

LISHUI

Enabling a Threefold Harmony: Ecologically, Culturally, and Spiritually.

Evolving a new vernacular at the scale of nature, landscape, and village. Indigenizing Design to Restore, Preserve, and Activate. Rewilding watersheds, connecting ecological

corridors, unleashing biodiversity. Enlivening a four-season, 24-hour immersion into shanshui. Reframing oppositions as opportunities where the city and countryside relate in symbiosis. Weaving the informal with the formal, we dissolve the orthogonal into the fractal to harmonize humans and nature.

PROJECT
Ecological corridor, agriculture, rural cultural landmark, commercial, residential, green infrastructure, museum, mixed use

SIZE
180 hectares (445 acres)

CLIENT
Lishui Municipal People's Government

LOCATION
Shenzhen, China

STATUS
Commission, concept, unbuilt

KEY PERSON
Andrew Heid, Junwei Li, Christopher Purpura, Zhangzheng Yang, Shunfan Zheng, agence TER, CBA, AAUPC

1. View from river. 2. Ecological corridors. 3. Sustainable farming. 4. Village restoration and activation.
